Bhanuja Kumar

has successfully completed the online Specialization

Responsible Generative AI

In this Specialization, learners developed and honed an understanding of responsible generative AI. In particular, learners explored the potential benefits, use cases, and fundamentals of generative AI, analyzed the global impact, challenges, risks, and governance of generative AI, and evaluated the future implications of generative AI on business and society. Learners were assessed through multiple-choice questions to check for understanding of the content.

Lecturer, Merve Hickok

This certificate attests to the learner's completion of an online program delivered via Coursera. It does not constitute formal enrollment at any university or entity and does not itself grant academic credit, grades, or a degree. Institutions or organizations may, at their discretion, recognize this learning toward their own programs or credentials.
